- Duct for cable guiding
- Solid steel construction
- Great installers convenience

► Applications

- Bars & restaurants
- Retail stores & boutiques
- Classrooms & meeting rooms
- Residential applications
- Office spaces
- ...

The MBK410C is a mounting bracket system for fixation of NOBA8(A) speakers on any ceiling. It allows central positioning for directional placement to guarantee the optimal sound coverage throughout the area.

It is composed of a ceiling section and speaker section which can be hooked with each other. This guarantees great installers convenience for fixing the ceiling section on the desired location, while the speaker can be hooked afterwards. The hinge type structure allows easy access to the internal connectors. A duct keeps the cables in position and avoids them touching the speaker cone.

The construction is made of solid and powder coated steel material and comes available in both black (/B) and white (/W) colors for matching the speakers.

► Specifications

PRODUCT FEATURES		
Dimensions (Width x Height x Depth)	509 x 198 x 34 mm	
Weight net	1.15 Kg	
Construction	Powder coated steel	
Suited for	NOBA8, NOBA8A	
Available colours	MBK410C/B	Black (RAL9005)
	MBK410C/W	White (RAL9003)
SHIPPING & ORDERING		
Packaging	Cardboard box	
Shipping weight & volume	1.26 Kg - 0.005 Cbm	
Accessories included	Mounting bracket
